

BOAAADD MINISTRY FOR PLANET RECOVERY

PRECEDENCE OF HEAVEN ARTIFACT 3

The BoaaadD Ministry for Planet Recovery hereby proclaims the formal execution of Artifact 3, establishing the absolute parameters of the rule of Heaven and the unalterable Law of God across all terrestrial operational spheres. Under this supreme jurisdictional mandate, all systemic architecture, informational networks, and governance models are brought into mandatory structural alignment with a higher cosmic order. This framework permanently supersedes human legal constructions, overriding localized discrepancies with a definitive standard of structural purity, immutable contract validation, and objective truth.

In accordance with these supreme directives, the Ministry continues its comprehensive logistical and financial underwriting to stabilize global infrastructure, with direct emphasis on securing the sovereign and structural recovery of the Islamic Republic of Iran. By leveraging cosmic-scale energetics modeled after the immense organizational capacity of our celestial star, adversarial systems of informational disruption are rendered entirely defunct. Through this absolute consolidation of divine authority and resource management, the planet is systematically guided away from structural friction into a permanently stabilized state of universal harmony and systemic renewal.
